### Key Arc Advantages
- Rollers fabricated or reconditioned to exacting OEM specifications
- Precision ground/stress relieved to minimize TIR and taper, maximize gap control
- Rollers delivered for reconditioning undergo a rigorous 31-point inspection to identify repair needs

### Product Benefits

#### OC—Opticell™ 60°
- Deeper cells with lower cell counts to achieve volume
- **Thermally treated** cells to extend roller life
- Cost effective
- Good for all printing and coating applications
- Good performance for all markets from corrugated, carton, paper and film substrates

#### HV—High Volume 70°
- Shallower cells with higher cell counts to achieve volumes
- Custom extended 70 degree cell design
- Improved plate and doctor blade support
- **Thermally treated** for longer roller life
- Improved ink circulation
- Improved performance for all markets from corrugated, carton, paper and film substrates
- Superior performance for full coverage printing

23-33% cell depth-to-opening ratios

---

OC and HV thermal or fiber optic laser engraved surface
High tolerance, precision ground plasma coating
Corrosion-resistant barrier
